Action button states

ORIGINAL EXAMPLE DESIGN / OFFLINE REFERENCE STUDY

Save changes	Save changes	Save changes	Save changes
default	hover	focus	disabled
Cancel	Cancel	Cancel	Cancel
default	hover	focus	disabled
Delete draft	Delete draft	Delete draft	Delete draft
default	hover	focus	disabled

Saving...

Project target: 44 x 44 CSS px | 8 px gaps

IMPLEMENTATION & STATE HANDOFF

VARIANTS: The matrix includes Primary, Secondary and Destructive variants.

STATES: Each variant shows default, hover, focus and disabled states.

DEFAULT LABEL: The Primary sample label is Save changes.

SECONDARY LABEL: The Secondary sample label is Cancel.

DESTRUCTIVE LABEL: The Destructive sample label is Delete draft.

FOCUS OUTLINE: Focus states have a 3 px visible outline with 2 px offset.

DISABLED EXPLANATION: The handoff notes that disabled controls are not keyboard focusable and are not submitted.

TARGET SIZE: The chosen design target is at least 44 by 44 CSS px, labelled as a project target rather than WCAG AA minimum.

NATIVE SEMANTICS: Use button elements; non-submit buttons use type=button.

LOADING BEHAVIOR: The loading specimen says Saving… and prevents duplicate submissions without claiming success.

SPACING: Adjacent action controls have at least 8 CSS px separation in the design.

USAGE DISTINCTION: The handoff restricts Destructive to irreversible actions and does not use it for Cancel.
