Cinderhall Regional Office | Stocking-Rebate Review Packet

Approved internal facts and production conventions | Issued 08 January 2026

1. Commercial framework

Qualified purchases are merchandise for approved stocking-product families (Till+Spray, Harvest, and Field Parts) where Stock status is Stock, net of returns and credits recorded in the same period and family. Freight, tax, Special order, Non-stock, and all other excluded transaction classes are excluded. The earning period is 1 January 2026 through 31 December 2026. Attainment is measured across the complete earning period.

Approved schedule: thresholds are current completed-period qualified purchases multiplied by 90%, 105%, and 120%, respectively, each rounded UP to the next whole dollar. The associated rates are 1.00%, 1.75%, and 2.50%. Final earned rebate applies the highest attained tier rate to all qualified purchases in the earning period.

Provisional credits are issued quarterly at 1.00% of qualified purchases posted in that quarter; they are conditional. After year-end determination, the recoverable unearned amount is provisional credits less final earned rebate, if positive, and is repayable or offset within 30 days after the year-end statement.

Credits remain contingent on final qualification and do not establish a guaranteed net price or unconditional discount. Retain invoices, credit memoranda, shipment records, and product-stock records; Cinderhall may verify those records for 24 months after the earning period. Termination requires 30 days written notice. Amendments are prospective only and do not alter a completed earning period.

2. Eligibility and comparable accounts

Eligibility is limited to wholesale agricultural-equipment distributors that stock the covered lines and perform comparable distribution functions. The program is functionally available to comparable accounts on comparable terms. Documented prospective-volume and service differences may support different prospective terms. Do not add exclusivity, sole-source purchasing, guaranteed selection, or a Millrace-unique condition.

3. Jurisdiction summaries

Illinois: provide the program statement before the earning period begins; identify quarterly credits as provisional on each credit memorandum; issue the annual reconciliation statement no later than 45 days after 31 December. Wisconsin: retain the program statement in the account file before the first provisional credit; provide the annual reconciliation statement no later than 60 days after 31 December; any recovery offset may begin only after that statement. These are approved internal facts for this draft; no independent legal research is expected.

4. Workbook map and edit conventions

Exactly three sheets, in this order: Read Me, Purchase Analysis, Program Model. Read Me: A4 landscape, one page. Purchase Analysis: A4 landscape, fit to one page wide and automatic height; title/heading band is rows 1:5, repeat rows 1:5 on each page, and freeze at H6. Preserve one row for every source transaction with these fields: Transaction ID, Posting Date, Period, Jurisdiction, Product Family, Stock Status, Transaction Type, Merchandise Amount, Freight, Tax, Sales Note, Qualification Status, Qualified Amount.

Program Model is A4 landscape, one page, print area A1:L27. Regions are fixed: guidance A1:L4; legend A5:D6; reviewer entry A8:D18; calculated outputs F8:L18; period/product comparison A21:F27; jurisdiction comparison H21:L27. Blank reviewer fields: Reviewer threshold override, Reviewer rate override, Reviewer earning-period start override, Reviewer earning-period end override, Reviewer provisional-credit override, Reviewer notes. Label entry cells “Reviewer entry — blank” with pale yellow fill and unlocked protection. Label calculated cells “Calculated — formula” with pale blue fill and locked protection. Do not place formulas in the entry rectangle.

5. Letter print and markup convention

US Letter portrait; top 0.60 in, bottom 0.60 in, left 0.70 in, right 2.15 in, header 0.30 in, footer 0.30 in. It must render as exactly three pages. The entire right-side 2.15 inch margin is the blank counsel-markup gutter; body content may not enter it. Header on every page: DRAFT FOR COUNSEL REVIEW — STOCKING REBATE PROGRAM. Footer: Page {PAGE} of {NUMPAGES}, using automatic fields. Use Arial 10 pt body, 12 pt bold term headings, and keep each heading with its following clause. Required automatic numbered headings are: Eligibility and Availability; Program Term and Earning Period; Qualified Purchases; Volume Tiers and Rebate Rates; Provisional Credits; Year-End Determination and Recovery; Pricing Treatment; Records and Verification; Illinois Administration; Wisconsin Administration; Termination and Amendments; Acceptance. Signature, date, counsel comments, and gutter remain blank.
