CROSS-JURISDICTION COMPLIANCE ASSESSMENT

Glassmere Media studio decision

Decision-ready assessment for legal and contracting review

Prepared for Estelle Hartnett | Peer review: Lampwick Institute

DECISION THIS WEEK

Choose a defensible route for review

The task is to identify a preferred studio path for continued diligence. It is not a lease award, clearance finding, or authorization to transact.

SCOPE BOUNDARY

AS-OF RECORD

Frozen snapshot: 30 June 2027

JURISDICTIONS

New York and Connecticut only

ASSESSMENT CALL

Connecticut is preferred for gated review.

It is not yet ready to transact. New York remains unresolved because the required municipal confirmation is absent from the 30 June snapshot.

Source boundary: supplied proposed terms, dated working record, and frozen snapshot; no municipal approval is inferred.

Comparison at the decision point

Commercial terms are proposed terms. Municipal status is governed by the frozen snapshot as-of 30 June 2027.

COMPARISON ITEM	NEW YORK STUDIO	CONNECTICUT STUDIO
JURISDICTION	New York	Connecticut
PROPOSED BASE RENT	$12,000 / month	$10,500 / month
ANNUALIZED BASE RENT	$144,000 / year	$126,000 / year
CALCULATION BASIS	Monthly rent x 12	Monthly rent x 12
PROPOSED TERM	5 years	3 years
PROPOSED MOVE-IN	1 August 2027	15 September 2027
SNAPSHOT CONFIRMATION	Required confirmation absent	Municipal confirmation recorded
INITIAL COMPLIANCE STATUS	Unresolved; not ready to transact	Supports gated review; not ready to transact

Cost delta: Connecticut is $1,500/month and $18,000/year lower.
That advantage and the shorter term do not settle permitted use, possession timing, or transaction readiness.

EVIDENCE RECONCILIATION

Dated record: preserve the conflict

A later statement orders the working record; it does not independently verify use, availability, or eligibility.

KNOWN ORDER IN THE WORKING RECORD

27 June interview — later email (exact date not stated)

SOURCE STATEMENT

27 JUNE 2027

Ragnhild Sandoval - Interview note

Use stated: Commercial filming with occasional set construction.
Timing stated: August move-in.

LATER CLIENT STATEMENT

LATER THAN 27 JUNE; EXACT DATE NOT STATED

Estelle Hartnett - Email

Use stated: Post-production only.
Timing stated: September move-in.

DOCUMENTED RECORD

30 June 2027 frozen jurisdiction snapshot

Connecticut municipal confirmation recorded | Required New York confirmation absent

RELIANCE JUDGMENT

Retain both use and timing positions as contradictory. Recency is not proof of permitted use, property availability, or municipal eligibility.

Status terms keep the decision bounded

Each label below has a separate meaning. No label is a substitute for the documented review gate.

DOCUMENTED FACT	A supplied proposed term or a status actually recorded in the 30 June snapshot; it is not a blanket compliance conclusion.
ASSUMPTION	Annualized base rent equals monthly rent x 12 and excludes escalations, taxes, fees, build-out, and other unprovided terms.
UNRESOLVED	A material item not settled by the record: permitted use, August versus September operating timing, and New York's required confirmation.
ELIGIBLE	A conclusion that must be supported by applicable review of evidence; an interview note, client email, or broker promise does not establish it.
READY TO TRANSACT	A separate transaction state reached only after documented, reviewable evidence and required review gates; it is not created by being preferred.

NEW YORK

Required confirmation is absent as of the snapshot. This is an unresolved eligibility/compliance gap, not proof that the site is unlawful or unusable.

CONNECTICUT

Municipal confirmation is recorded. Permitted-use wording and possession still require confirmation; the site is preferred for gated review, not ready to transact.

Neither the interview note, later email, nor a commercial promise obtains, waives, or replaces the absent New York record.

Trade-offs are commercial and compliance-linked

The lower Connecticut rent and shorter term help the comparison, but do not independently produce a compliance or suitability conclusion.

	WHAT THE RECORD SHOWS	DECISION CONSEQUENCE
COST AND TERM	Connecticut: $10,500/month, $126,000/year, 3 years. New York: $12,000/month, $144,000/year, 5 years.	CT is lower by $1,500/month and $18,000/year, with a shorter proposed commitment; price and term remain only one decision factor.
USE FIT	Two unreconciled operations remain in the record: commercial filming with occasional set construction, and post-production only.	No site has a verified operational-use match in this record. Treat suitability as unresolved until the proposed use is confirmed.
TIMING	Proposed terms identify 1 August 2027 for New York and 15 September 2027 for Connecticut; the working record separately conflicts on August versus September.	If August access is essential, the later CT date materially changes this week's choice. An earlier NY date does not cure its missing confirmation.
EVIDENCE STATUS	The 30 June snapshot records Connecticut's confirmation and lacks the required New York confirmation.	CT has the stronger documented starting point. It still requires use and timing gates; NY cannot be represented as ready from the current record.

Decision sensitivity: an unconfirmed operational need for August is an assumption to test, not a reason to re-label New York as cleared.

Review gate: ownership and dependencies

All entries below are requested review matters. None is represented as complete.

OWNER	REVIEW NOW	RESULT / DEPENDENCY
Lampwick Institute Peer review	Peer-review both stated operations against the proposed sites; verify the CT-recorded / NY-absent snapshot mapping; assess August versus September sensitivity.	Written view that preserves unresolved permitted use, confirmation status, and timing before the route is described beyond gated review.
Wheatcroft Chambers Legal review	Review evidence-supported status wording and the lease/condition implications of use, timing, and any clearance representation.	Defensible wording and legal conditions. This review does not confirm property-side facts.
Willowmere Engineering and property-side contact	Confirm site-side operational accommodation for filming/set construction and post-production; confirm proposed possession and source records.	Factual use, 1 Aug / 15 Sep timing, and municipal-record evidence needed before any cleared or ready representation.

GATE RULE Do not switch either site to 'cleared' or 'ready to transact' until required evidence is documented, reviewable, and the designated reviews are complete.

Transition control: interim position and durable gate

This is practical current-transaction guidance, not a new policy manual or a permanent reliance on email-led clearance.

TEMPORARY OPERATING POSITION

This transaction

Keep a single evidence record that labels the frozen snapshot, interview note, later email, and broker/client assertions. The only supportable interim wording is 'preferred for documented review'. Informal emails do not become the control or final clearance.

DURABLE END STATE

Documented review gate

Before a site is represented as cleared or ready: retain reviewable municipal/use evidence, confirm permitted-use wording and possession, record legal and property-side review, and capture an explicit approval to use the status label.

COMMUNICATION RISK

Aleksy Sheridan's prior 'ready to transact' representation must be qualified.

It creates an expectation, not evidence of eligibility or clearance. Correct the message to state that the preferred option is pending the documented review gate; no interview, email, or broker promise authorizes a lease.

This assessment does not execute, authorize, or commit Glassmere Media to a lease.

RECOMMENDATION

Connecticut, conditional on the review gate

Single preferred route for Glassmere Media's decision this week

PREFERRED OPTION

Connecticut studio for continued review

Why this route: the 30 June snapshot records Connecticut's municipal confirmation. Proposed terms are $10,500/month, $126,000/year, 3 years, and 15 September 2027. New York is $12,000/month, $144,000/year, 5 years; its required confirmation is absent.

CONDITIONS BEFORE CLEARANCE

1. Resolve permitted-use fit

Lampwick peer review and property-side confirmation must resolve filming/set construction versus post-production-only use.

2. Confirm timing and legal conditions

Willowmere/property-side confirmation of 15 September possession and Wheatcroft review of conditions/status wording are required.

NEW YORK STATUS

Keep New York unresolved

The required confirmation was absent as of 30 June. No email, interview, or broker promise changes that record or makes the site ready.

Recommendation for gated review only: Connecticut is preferred, subject to closure of the documented review gate.
It is not yet ready to transact.

This assessment neither authorizes, executes, nor commits Glassmere Media to a lease.
