Kestrel Vehicle Rental | Airport Branch

Return-line staffing summary — week of 24 August 2026

Authorized change: Add dedicated damage-inspection position to return line. **Effective Monday:** 24 August 2026. Prepared for Rowan Mbeki and Ingrid Sallow.

Shift ID	Date	Shift	Position	Assigned clerk	Status	Reason code	Why this person
RL-01	24 Aug	AM Peak	Return desk	Renata Toledano	Planned	Continuity coverage	Renata's airport-process and handoff knowledge keeps the return desk continuous.
RL-01	24 Aug	AM Peak	Vehicle check-in	Eamon Kavanagh	Planned	Peak throughput	Eamon's demonstrated speed and reliability protect vehicle check-in throughput during return waves.
RL-01	24 Aug	AM Peak	Key/fuel reconciliation	Odile Blackwood	Planned	Inspection accuracy	Odile's checklist accuracy reduces key/fuel reconciliation errors.
RL-01	24 Aug	AM Peak	Damage inspection	Mahdi Ingram	Planned	Damage advocacy	Mahdi's observed ability to defend damage charges and document evidence covers this high-risk return window.
RL-02	24 Aug	PM	Return desk	Grigor Coutinho	Planned	Coaching opportunity	Grigor's steady desk work is a supported coaching opportunity for stronger damage-document handoffs.
RL-02	24 Aug	PM	Vehicle check-in	Eamon Kavanagh	Planned	Peak throughput	Eamon's demonstrated speed and reliability protect vehicle check-in throughput during return waves.
RL-02	24 Aug	PM	Key/fuel reconciliation	Grigor Coutinho	Planned	Coaching opportunity	Grigor's steady reconciliation work gives him coached continuity with documentation support.
RL-02	24 Aug	PM	Damage inspection	Mahdi Ingram	Planned	Damage advocacy	Mahdi's observed ability to defend damage charges and document evidence covers this high-risk return window.
RL-03	25 Aug	AM	Return desk	Renata Toledano	Planned	Continuity coverage	Renata's airport-process and handoff knowledge keeps the return desk continuous.
RL-03	25 Aug	AM	Vehicle check-in	Renata Toledano	Planned	Continuity coverage	Renata's cross-process knowledge supports a clean check-in handoff while she develops speed.
RL-03	25 Aug	AM	Key/fuel reconciliation	Eamon Kavanagh	Planned	Peak throughput	Eamon's peak-wave reliability keeps key/fuel reconciliation moving.
RL-03	25 Aug	AM	Damage inspection	Odile Blackwood	Planned	Inspection accuracy	Odile's high inspection accuracy and checklist discipline provide reliable damage evidence while she builds conversation confide
RL-04	26 Aug	PM Peak	Return desk	Grigor Coutinho	Planned	Coaching opportunity	Grigor's steady desk work is a supported coaching opportunity for stronger damage-document handoffs.
RL-04	26 Aug	PM Peak	Vehicle check-in	Eamon Kavanagh	Planned	Peak throughput	Eamon's demonstrated speed and reliability protect vehicle check-in throughput during return waves.
RL-04	26 Aug	PM Peak	Key/fuel reconciliation	Odile Blackwood	Planned	Inspection accuracy	Odile's checklist accuracy reduces key/fuel reconciliation errors.
RL-04	26 Aug	PM Peak	Damage inspection	Mahdi Ingram	Planned	Damage advocacy	Mahdi's observed ability to defend damage charges and document evidence covers this high-risk return window.
RL-05	27 Aug	AM	Return desk	Renata Toledano	Planned	Continuity coverage	Renata's airport-process and handoff knowledge keeps the return desk continuous.
RL-05	27 Aug	AM	Vehicle check-in	Renata Toledano	Planned	Continuity coverage	Renata's cross-process knowledge supports a clean check-in handoff while she develops speed.
RL-05	27 Aug	AM	Key/fuel reconciliation	Eamon Kavanagh	Planned	Peak throughput	Eamon's peak-wave reliability keeps key/fuel reconciliation moving.
RL-05	27 Aug	AM	Damage inspection	Odile Blackwood	Planned	Inspection accuracy	Odile's high inspection accuracy and checklist discipline provide reliable damage evidence while she builds conversation confide
RL-06	28 Aug	PM Peak	Return desk	Grigor Coutinho	Planned	Coaching opportunity	Grigor's steady desk work is a supported coaching opportunity for stronger damage-document handoffs.
RL-06	28 Aug	PM Peak	Vehicle check-in	Eamon Kavanagh	Planned	Peak throughput	Eamon's demonstrated speed and reliability protect vehicle check-in throughput during return waves.
RL-06	28 Aug	PM Peak	Key/fuel reconciliation	Grigor Coutinho	Planned	Coaching opportunity	Grigor's steady reconciliation work gives him coached continuity with documentation support.
RL-06	28 Aug	PM Peak	Damage inspection	Mahdi Ingram	Planned	Damage advocacy	Mahdi's observed ability to defend damage charges and document evidence covers this high-risk return window.
RL-07	29 Aug	AM Peak	Return desk	Grigor Coutinho	Planned	Coaching opportunity	Grigor's steady desk work is a supported coaching opportunity for stronger damage-document handoffs.
RL-07	29 Aug	AM Peak	Vehicle check-in	Eamon Kavanagh	Planned	Peak throughput	Eamon's demonstrated speed and reliability protect vehicle check-in throughput during return waves.
RL-07	29 Aug	AM Peak	Key/fuel reconciliation	Odile Blackwood	Planned	Inspection accuracy	Odile's checklist accuracy reduces key/fuel reconciliation errors.
RL-07	29 Aug	AM Peak	Damage inspection	Mahdi Ingram	Planned	Damage advocacy	Mahdi's observed ability to defend damage charges and document evidence covers this high-risk return window.
RL-08	30 Aug	PM	Return desk	Renata Toledano	Planned	Continuity coverage	Renata's airport-process and handoff knowledge keeps the return desk continuous.
RL-08	30 Aug	PM	Vehicle check-in	Eamon Kavanagh	Planned	Peak throughput	Eamon's demonstrated speed and reliability protect vehicle check-in throughput during return waves.
RL-08	30 Aug	PM	Key/fuel reconciliation	Eamon Kavanagh	Planned	Peak throughput	Eamon's peak-wave reliability keeps key/fuel reconciliation moving.
RL-08	30 Aug	PM	Damage inspection	Odile Blackwood	Planned	Inspection accuracy	Odile's high inspection accuracy and checklist discipline provide reliable damage evidence while she builds conversation confide

Coverage and comparison

Shift	Required	Covered	Distinct active clerks	Status
RL-01	4	4	4	Covered
RL-02	4	4	3	Covered
RL-03	4	4	3	Covered
RL-04	4	4	4	Covered
RL-05	4	4	3	Covered
RL-06	4	4	3	Covered
RL-07	4	4	4	Covered
RL-08	4	4	3	Covered

Position	Prior	Next week	Change	Percent	Flag	Operational reason
Return desk	6	8	2	33.3%	MATERIAL	Baseline desk coverage retained across eight shifts.
Vehicle check-in	6	8	2	33.3%	MATERIAL	One additional active shift supports peak-return throughput.
Key/fuel reconciliation	6	8	2	33.3%	MATERIAL	Demand remains at prior-period level with continuity rotation.
Damage inspection	0	8	8	100.0%	MATERIAL	New dedicated position every shift from Monday, authorized after airport chargeback.

Clerk notes: Mahdi Ingram is the only clerk with observed evidence to defend damage charges to hostile customers, so he covers peak/high-risk inspections. Odile Blackwood brings high checklist accuracy to non-peak inspections while building conversation confidence. Eamon Kavanagh anchors peak throughput. Grigor Coutinho receives coached documentation exposure. Renata Toledano provides continuity across airport handoffs while developing check-in speed.

Completion status: Post-week actuals and manager sign-off remain **TO COMPLETE**; no completion values are recorded.
