Quarryfield Planner Handoff Standard

Annual verification visit planner schema for Alderwick Collective

Workbook sheets and order

Read Me, Setup, Visit Plan, Constraint Summary, Access Reference, Travel Reference, Lists

Label	Type / unit
Planning year	Entry, four-digit year
Travel interpretation	Entry; Route-chain or Conservative depot
Workday start	Entry, time
Workday end	Entry, time
Certified technician	Entry; approved technician list

Visit Plan columns

Site ID; Site Name; Visit Duration (min); Required Standard; Visit Date; Start Time; Finish Time; Technician; Assigned Standard; Visit Sequence; Access Check; Technician Check; Standard Check; Travel Check; Workday Check; Overall Result

Approved controlled values

Technician: Morgan Lee. Assigned Standard: Standard A, Standard B. Travel interpretation: Route-chain, Conservative depot. Sequence: integer 1-19. Date: 2027-01-01 through 2027-12-31. Time: 00:00 through 23:59.

Status vocabulary and visual convention

PASS (green), FAIL (red), NOT READY (amber). A check is NOT READY until every input required by that check is supplied. Overall Result is NOT READY when inputs or checks are incomplete, FAIL when any applicable check fails, and PASS only when all applicable checks pass.

Travel interpretations

Route-chain: first visit of a date uses DEPOT-to-site travel; each later visit uses travel from the immediately preceding same-date sequence. Conservative depot: every visit uses DEPOT-to-site travel. Travel mode must be chosen deliberately; blank mode remains NOT READY.

Protection and use

Yellow cells are coordinator entry cells and are unlocked. Blue/gray cells are factual or calculated and locked. Enter setup first, then one visit line per laboratory. The workbook reports constraints and does not recommend dates, reorder visits, or resolve exceptions.

Summary and print

Constraint Summary provides contracted, scheduled, unscheduled, fully compliant, exception, and separate Standard A, Standard B, technician, access, and travel indicators. Visit Plan prints A3 landscape, one page wide by two pages tall with repeated headings. Constraint Summary prints A4 portrait on one page. Footer identifies the workbook and page number.
