Customer-facing message — ready for Tamsin to send

Dear Imani,

Thank you for flagging the allowance shown in our earlier exchange. We reconciled the current order and dispatch records to frozen schedule PA-2031.05 (as of 31 May 2031). We confirm a supported project allowance of **£2,995.20** for the Ivyhurst order. We will apply the additional **£2,495.20** adjustment, taking the account balance to **£16,254.80**.

The campaign covers eligible net merchandise shipped no later than 2 June 2031 with a completed carrier-accepted event. Freight and setup/installation are excluded. The schedule does not expressly say whether an incomplete line partly dispatched on the cutoff date counts as shipped; we count the 4 packs carrier-accepted on 2 June (52 units) and exclude the 6-pack remainder accepted on 3 June. No post-cutoff quantity is included.

England and Wales and Scotland have different product scopes and rate tiers; the reconciliation below shows the basis. Kind regards,
Tamsin Gauthier

Calculation support — inclusive cutoff branch

Ordered packs × current pieces/pack = physical units. Only completed carrier-accepted events within the booking window and on/before cutoff qualify. Current net unit prices are used; retired helper and withdrawn draft result are ignored.

Line	Regime / product	Ordered units	Carrier events → qualifying units	Disposition	Eligible value
L100	E&W · Secure storage locker	260	2031-06-01: 18 pk → 234 u	Qualifies · 6.00% → £1,755.00	£29,250.00
L110	E&W · FireSafe equipment cabinet	130	2031-06-02: 4 pk; 2031-06-03: 6 pk → 52 u	Qualifies · 6.00% → £655.20	£10,920.00
L120	Scotland · Secure storage locker	156	2031-06-01: 12 pk → 156 u	Qualifies · 3.00% → £585.00	£19,500.00
L130	Scotland · Network access cabinet	136	2031-06-03: 8 pk → 0 u	No qualifying shipment by cutoff · 3.00% → £0.00	£0.00
L140	Scotland · FireSafe equipment cabinet	65	2031-06-01: 5 pk → 65 u	Outside Scotland eligible scope · 3.00% → £0.00	£0.00

Jurisdiction	Ordered units	Pre-cutoff units*	Eligible value	Tier / rate	Allowance
England and Wales	482	234	£40,170.00	≥ £40,000 · 6.00%	£2,410.20
Scotland	357	221	£19,500.00	< £20,000 · 3.00%	£585.00
Supported project allowance					**£2,995.20**

*Pre-cutoff control includes all carrier-accepted merchandise before 2 June, including Scotland P-FSAFE13 which is outside scope; ambiguous 2 June partial excluded.

Cutoff rationale

The frozen schedule says “orders shipped no later than the campaign cutoff” and requires completed carrier-accepted evidence. It does not expressly resolve an incomplete line partly dispatched on the cutoff date. We count only 4 packs accepted on 2 June (4 × 13 = 52 units) for L110 and exclude 6 packs accepted on 3 June (78 units). This is a defensible earned-shipment treatment.

Jurisdiction comparison: England and Wales covers P-LOCK13 and P-FSAFE13; its tiers are < £40,000 at 4.00% and ≥ £40,000 at 6.00%. Scotland covers P-LOCK13 and P-CAB17; its tiers are < £20,000 at 3.00% and ≥ £20,000 at 5.00%. Freight and setup/installation are excluded in both.
