FERNHOLLOW SYSTEMS — AWARD DRAWING EXTRACT

Sandpiper Supply chassis-line weld fixture

Drawing ID: FH-SS-CHS-017 Revision: B Issue date: 14 May 2024

Feature / datum	Definition in award drawing
Datum A	Finished machined face (primary plane)
Datum B	Locating feature used with datum A after machining
Datum C	Locating feature used with datum A and B after machining
Flatness feature control frame	0.18 mm applied to the finished machined face

Manufacturing sequence

Welding precedes machining. The as-welded assembly face is not the finished controlled surface. The flatness callout is evaluated on the finished machined face using the supplied datum reference frame A|B|C.

Contractual scope note

This supplied award drawing and the companion tolerance text are the governing contract documents for this review. No later revision, customer concession, or external standard is incorporated in this extract.
