COPPERLANE FILMS

Fee Position — Vellumstone Fisheries / Rosalind Ellingsen cut

For Rosalind Ellingsen and Dagny Nightingale | review before the agency discussion next week

Recommended negotiation range	**$24,000–$31,500** Existing 30s commercial cut; Germany + Nordic countries; 24-month online extension; no new cutdowns.
Basis	Lower: supplied current rate basis — $12,000 online + $12,000 for two territories = $24,000. Upper: CL-103 source fee ($31,500), qualified as broader territory scope.

Scope

This is a licensing re-use of the existing Rosalind Ellingsen 30-second commercial, not a new production. The requested extension covers Germany and the Nordic countries (Denmark, Finland, Iceland, Norway and Sweden) for two years of online use.

Historical comparison conclusions

Deal / source fee	Conclusion
CL-103 — North Current $31,500 | 10 Nov 2024	Closest comparator: only 24-month online + social retained-master deal. Its US + Canada + Australia territory scope is broader, so retain as a qualified upper anchor, not a direct equivalent.
CL-102 — Tide Lines $22,000 | 01 Sep 2023	Excluded from direct range: UK + Ireland broadcast-only for 18 months; correspondence confirms no online rights.
CL-101 — Harbor Light $18,500 | 15 Mar 2022	Qualified context: pre-dates revised talent re-use rates effective 01-Jan-2024. Cutdown package was contracted but correspondence confirms it was unused; only the 30s master ran.

Position and limitation

Use $24,000–$31,500 as Copperlane's negotiation position, not as an externally verified market fact. The evidence does not allocate CL-103's fee by territory or separate online from social use, and it gives no value for unused CL-101 cutdowns. The source workbook quantities are packs/shipment packs rather than individual edits; no unsupported per-edit conversion has been made.
