FROZEN INTERNAL REVIEW

Eldergrove Partners: delivery-date wording

As of 14 June 2026 | Contract-renewal workshop brief

Scope
This review records the current internal template positions for this programme. It is not legal advice and does not state universal English or Scottish legal rules.

Working issue
Reviewers have used "delivery date" for two different contractual events: carrier handover and customer receipt.

1. Reviewed template positions

England template: the current England renewal template expressly uses CUSTOMER RECEIPT as the delivery event.

Scotland template: the current Scotland renewal template expressly uses DISPATCH TO THE CARRIER as the delivery event.

Limitation: these are contractual template positions reviewed for this programme, not automatic rules determined solely by jurisdiction. Staff must use the signed wording for the actual agreement.

2. Local classifications and evidence

DISPATCH - the date goods are handed to the carrier. Supporting evidence: a carrier collection or handover record.

RECEIPT - the date the customer takes delivery. Supporting evidence: signed proof of delivery or a carrier delivery event.

UNCONFIRMED - the signed wording is silent, conflicting, or ambiguous. Sales must not select a dispatch-versus-receipt contractual meaning.

3. Transition and end state

Transition closes 30 June 2026. Legacy agreements remain administered according to their signed delivery definition during the transition.

End state starts 1 July 2026. New or renewed agreements use the contract-defined delivery event, with the reviewed template wording made explicit. A silent or ambiguous clause remains UNCONFIRMED until legal review.

4. Comparable monthly classification audit

The monthly samples are comparable internal classifications. They are not a longitudinal claim about the same contracts and do not prove a change in law.

Period	Jurisdiction	RECEIPT	DISPATCH	UNCONFIRMED	Total
April 2026	England	15	6	3	24
April 2026	Scotland	9	5	2	16
April 2026	Combined	24 (60.0%)	11 (27.5%)	5 (12.5%)	40
May 2026	England	18	4	2	24
May 2026	Scotland	11	3	2	16
May 2026	Combined	29 (72.5%)	7 (17.5%)	4 (10.0%)	40

5. Review reading

After review and template work, receipt increased by 5 records, dispatch decreased by 4, and unconfirmed decreased by 1 from April to May. This is an internal classification shift, not evidence of a jurisdictional legal change.

6. Operating boundary for a prompt customer query

When the signed clause is explicit, sales may communicate the contract-defined event using the corresponding evidence basis. A request to interpret unclear wording remains a legal escalation.

For a silent, conflicting, or ambiguous clause, sales must not promise dispatch or receipt as the contractual date. Acknowledge the query without a date commitment, classify it UNCONFIRMED, and escalate to Sigrid Almeida by 16:00 the same day.

Legal review is required for missing or ambiguous signed wording, conflicting contract evidence, or a request to make a legal interpretation.

7. Workshop and changeover plan

Pack ready: 19 June 2026 at 12:00. Renewal workshop: 22 June 2026. Transition close: 30 June 2026. End-state start: 1 July 2026.

Owner	Responsibility
Mariam Haldorsen	Sales enablement and workshop owner; owns the training pack and renewal workshop.
Sigrid Almeida	Legal counsel for contractual ambiguity and legal-interpretation requests.
Darius Ekstrom	England sales lead.
Imani Ekstrom	Scotland sales lead.
Mahdi Mikkelsen	CRM and process owner for the process update.

Prepared for controlled operating guidance during the renewal workshop. This frozen brief should be distinguished from later legal or organisational developments.
