Indiana Police Detail Cancellation Policy

Government Oversight Unit | Effective: 18 March 2026 | Policy snapshot

Purpose and effective date

This Indiana police-detail reimbursement rule is in force on 18 March 2026 for this claim review.

Completed detail

A completed detail reimburses actual hours, rounded to the nearest half hour.

Cancellation before deployment

A cancellation before deployment receives 2.00 reimbursable hours only when the cancellation is within two hours before the scheduled deployment time. A cancellation more than two hours before scheduled deployment receives 0 reimbursable hours.

Cancellation after deployment

Where a deployment timestamp exists and precedes the cancellation timestamp, reimburse actual elapsed or logged hours rounded to the nearest half hour, subject to a 2.00-hour minimum. This minimum applies only after deployment.

Deployment evidence

The deployment and cancellation timestamps in the detail register determine deployment status; a cancellation minutes after a logged deployment is after deployment.

Amount and utilization

Calculate each line as reimbursable hours times the municipal rate and round the line amount to cents, half up. Utilization equals reimbursable hours divided by scheduled hours, shown to one decimal percent. If scheduled hours are zero, show utilization as N/C and exclude that row from aggregate utilization.
