Dunmarrow Fisheries — Q4 2027 Credit Account Plan

Prepared for Emeka Schuyler (Legal) and Noor Mortensen (Account Leadership) · Analysis date: 2028-01-08

Decision summary

Measured quarter: **17 of 20 eligible lines filled on time (85.0%).**

DSA-2026-04 tier: **85.00–89.99% (2.00%).** Eligible value: **$36,150.00.**

Proposed service credit: **$723.00**, subject to Legal and branch approval; not authorized.

Method and exception pattern

Each unique Event ID is replayed once from the opening order-line register. Customer cuts reduce demand.

Accepted substitutions use supplied base equivalents; proposed/rejected substitutions do not count.

Only promised-date activity counts. Current packs remove apparent one-unit variances. Exceptions are partial releases and late balances.

Forward scenario

Approved assumption: correct only partial-release/late-balance misses; keep the 20-line denominator and all other outcomes unchanged.

Projected result: **20 of 20 lines (100.0%).** Scenario only; not a Q4 restatement.

Next actions

Owner	Timing	Action
Anders Navarro	Before Tuesday review	Validate quarter-wide line roster and proposed amount with branch finance.
Emeka Schuyler	Before review	Confirm DSA-2026-04 framing and approval path; no independent legal conclusion requested.
Noor Mortensen	Tuesday review	Present historical result separately from the approved forward scenario and seek branch decision.
Overbrook account rep	Within 5 business days	Send Dunmarrow a traceable exception list and log any approved credit in the account record.

Agreement: Dunmarrow Supply Agreement DSA-2026-04, governed by Maine law.

This is a factual commercial recommendation for review.
